Professional Experience

EXEO

Frontend Developer Intern (Erasmus+ Programme)

Thessaloniki, Greece | 2025

Completed an international internship through the Erasmus+ programme, working on frontend development tasks in a professional environment.

Responsibilities:

Developed and maintained user interface components for web applications.

Worked with HTML, CSS, JavaScript, and modern frontend development practices.

Collaborated with team members on project implementation.

Participated in code reviews and testing activities.

Improved website usability and responsive design.

Electromedia

IT Intern

Kraków, Poland | 2024-2025

Completed an internship at an IT company specializing in computer assembly and hardware services.

Responsibilities:

Managed databases related to product purchases and sales.

Maintained inventory and sales records.

Assisted with computer assembly and hardware preparation.

Processed and organized technical documentation.

Supported daily IT and administrative operations.

TeachMeSkills Programming School

Python Developer (Intern)

April 2025 – November 2025

April 2025 – May 2025

- Learned the fundamentals of Python: data structures (lists, tuples, dictionaries), loops, and functions.
- Worked with data processing and task automation.
- Solved practical problems and completed mini-projects.
- Studied object-oriented programming (OOP).
- Wrote scripts to automate routine tasks.
- Participated in project implementation under the guidance of mentors.

Graduation Project: FlatmateFlow

Developed a web application for managing household responsibilities among roommates, including expense tracking, point systems, gamification, and rewards.

Responsibilities:

- Requirement analysis and collection.
- Database architecture design.
- Backend development using Django (REST API, points system).
- Building the web application with FastAPI and WebSocket support for real-time interaction.
- Implementing asynchronous tasks and notifications.
- Testing and deploying the project.

Technologies:

Django, Django REST Framework, FastAPI, WebSocket, PostgreSQL, Celery, Redis, Docker, HTML, CSS, JavaScript (basic), Bootstrap, Git/GitHub.

About Me

I am a dedicated and ambitious beginner Python developer with a strong passion for creating practical solutions and continuous professional growth.

I have a particular interest in Data Science and data analysis.

I have hands-on experience in web development, gained through academic and educational projects. I regularly expand my technical knowledge by working on applications, databases, and automation tools.

I am a fast learner, enjoy taking on new challenges, and aim to build a career as a Data Analyst or Junior Developer.

Technical Skills

Programming Languages

Python, C++, SQL, JavaScript (basic), PHP

Web Technologies

HTML, CSS, Flask, FastAPI, Django

Databases

MySQL, SQLite, PostgreSQL

Tools & Technologies

Git, GitHub, VS Code, PyCharm, Visual Studio, Draw.io, Microsoft

Teams, Jupyter Notebook, Google Sheets, Google Colab, Google Docs

Currently Learning

- Data Science
- Machine Learning Engineering
- Data Analytics

Languages

- Russian – Native
- Polish – Fluent
- English – B2/C1
- German – B1

Education

Mechanical School Complex No. 3, Kraków

Computer Science Technician (currently in the 3rd year)

2023 – Present

Average grade: 5.7/6.0

TeachMeSkills

Python Developer Course

April 2025 – November 2025
